In architecture, vertical supports are often referred to as "posts" or "pillars". A circular support is known as a column, while a square or rectangular support is often called a pier.. Prior to the age of steel framing, the interior space of a post-and-beam structure was necessarily crowded with columns. Arches, on the other hand, could redirect a building's weight over long distances to thick ...

Architecture is an art form of the eye, the hand, the head and the heart. The practice of architecture calls for the eye in the sense of requiring precise and perceptive observation. It requires the skills of the hand, which must be understood as an active instrument of processing ideas in the Heideggerian sense.

High Renaissance style in architecture conventionally begins with Donato Bramante, whose Tempietto at S. Pietro in Montorio at Rome was begun in 1510. The Tempietto, signifies a full-scale revival of ancient Roman commemorative architecture. David Watkin writes that the Tempietto, like Raphael's works in the Vatican (1509-11), "is an attempt at reconciling Christian and humanist ideals".
